

Air one radio serves our community by providing commercial free music with a positive message. they also provide prayer requests and for our HUGE military community they offer the air one wall of prayer where you cna list your military family member on a nation wide prayer list. Air one serves the community by providing worship opportunities specifically directed at young listeners. I have met many people new to the area who have found great comfort in air one's message. Keeping this station is in the public interest because we live in an area where several of the stations play music with explicit references to drug use. Air one provides commercial free, Christian rock, giving young people and families a safe listening option that is edgy enough to hold the interest of those of us who are genreally put to sleep ro otherwise put off by softer christian music.
